## Invitation

SerNet is proud to host this unique event for the 12th time! During the last years Samba has been established as a key infrastructure system for file servers and authentication. This year's event will be about 20 years of Samba and the break through in Samba 4 and the Active Directory controller provided by Samba on a Linux server.

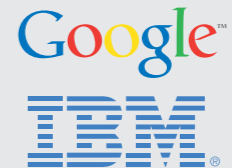

**Again this year: BarCamp with the team on Friday, 17<sup>th</sup> May!**

The **conference** is on **Wed, 15<sup>th</sup> & Thu, 16<sup>th</sup> May**
